

## **Communication Support for COVID-19 Research Activities**

### **Sample of Relevant Projects**

Over the past 40 years, NIVA has provided support for over 1200 communication projects. We have gained deep insight from significant experience with health-related communications including research reports, emergency preparedness and management planning, as well as a broad spectrum of products designed to engage internal, stakeholder, and public audiences. Here is a list of some of our most relevant projects:

- **Pandemic Influenza Fact Sheets (Ontario Ministry of Health and Long-Term Care)**
  - **First Nations Pandemic Influenza Brochure (Ontario Ministry of Health and Long-Term Care)**
  - **Review of Pandemic Influenza Risk Communications for First Nations and Inuit (Health Canada)**
  - **Aviation Pandemic Influenza Plan (Transport Canada)**
  - **Pandemic Influenza Operational Readiness Plan (Citizenship and Immigration Canada)**
  - **Chief Public Health Officer's (CPHO) State of Public Health in Canada Reports (Public Health Agency of Canada)**
  - **Research Reports on Antimicrobial Resistance (Public Health Agency of Canada)**
  - **Science Communication Plan (Canadian Blood Services)**
  - **Health Portfolio Emergency Response Plan (Public Health Agency of Canada)**
  - **Communications Strategy for Communicable Disease Control Division (First Nations and Inuit Health Branch, Health Canada)**
  - **Guide for Developing and Disseminating Health Professional Communications and Public Advisories (Health Canada)**
  - **Surge Capacity PDF Document Templates for National Office for Health Emergency Response Teams (Public Health Agency of Canada)**
  - **Sector Strategy Fact Sheets (Genome Canada)**
  - **Infographic Development and Other Graphic Design Support (Statistics Canada)**
-
